

Ask Fallbrook Voters: One Vote Is Important

By CHARLES E. CHAPEL
Assemblyman, 46th District
Recently the people of Fallbrook, in San Diego County, went to the polls to vote on a \$4.5 million water bond issue. Those in favor of the bonds started to celebrate when the election returns showed that exactly 2/3 of those voting voted in favor of the bonds. The vote was 441 to 222. The celebration came to a fast halt when someone discovered

that the state law reads "more than a 2/3 vote." The bond issue failed by exactly one vote. Someone thought that his or her vote was not important.
Fallbrook borders on the large U. S. Marine Corps reservation, usually referred to as Camp Pendleton. Incidentally, Camp Pendleton was named in honor of the late Major General Joseph H. Pendleton, U. S. Marine Corps, retired.

Water supply always has been a problem in the Fallbrook-Pendleton area.
Sept. 15 is the last day to register to vote if you want to vote at the General Election on Nov. 8. If you have recently become 21 years old, or if you have moved your residence, play safe. Write to Benjamin S. Hite, Los Angeles County Registrar of Voters, 808 N. Spring St., Los Angeles, and say

you would like to have one of his deputies call on you. If you wish, write to me at Post Office Box 327, Redondo Beach, and I shall have a deputy registrar call on you. When the deputy arrives, all you have to tell her (most deputies are ladies) is your name, your address, how long you have lived in California, how long you have lived in Los Angeles County, and the name of the political party with which

you wish to be affiliated. That is all. The whole operation is quick, painless and patriotic.
The United States Under Secretary of Labor, John F. Henning, with whom I have been acquainted for several years, recently made a speech in San Diego. He said, in part:
"But you and I know that if a female skunk has a litter of kittens in the garage,

that does not make those little kittens Chevrolets; they are still skunks."
Apparently John F. Henning is partial to the products of General Motors. Why did he not mention the Ford? Or the Edsel, a Ford product of unlamented memory.
You have been reading in the newspapers reports of the requests of Registered Nurses for higher pay and better working conditions.

Even nurses employed by the State of California are underpaid. Their requests are long overdue. No young lady ever enters the nursing profession unless she has a high sense of dedication because she knows very well that the responsibilities are great, the hours are long, the duties are difficult, and the pay is usually poor. Also, if she is a private nurse her duration of employment is often very uncertain.

and practical application in hospitals and have granted the graduates the Bachelor of Science degree.
One of the most inspiring sights in America is the "capping ceremony" when the graduates of a college for nurses take the oath written originally by Florence Nightingale and then, in single file, go forward to have the distinctive caps of their college placed upon their heads.
Each school or college of nursing has its own distinctive cap and a pin. The Registered Nurses wear them proudly.
